# Rebate Eligibility Requirements

Rebates are available for qualifying insulation upgrades installed after October 1, 2009 and completed and passed inspection by September 30, 2010. Only insulation upgrades that have been approved in writing by a Weatherwise Service representative qualify for a rebate.

**Service Requirements:** Your home must currently be served electricity by the City of Port Angeles and have any type of electric heating equipment capable of heating your building. To qualify the building must have a certificate of occupancy issued prior to January 2009. A building with any type of electric heating equipment with a fireplace, fireplace insert or wood stove qualifies. A building with a non-electric heating system (oil, propane, etc) and any type of electrical heating equipment qualifies; however, removal of the non-electric heating systems is required. Basements heated by an electric heating system and by no other non-electric space heating equipment qualify.

**Insulation:** Rebates are only available for insulation installed in areas of the residence that separate conditioned space (electrically heated) and unconditioned or outside spaces where none exists or where the R-value is less than that prescribed in the table below.

Location:	Ceiling	Wall	Floor
Existing R-value:	Less than R-19	R-0	Less than R-19
Recommended R-value:	R-38	R-11	R-30

Insulation must be properly installed according to the manufacturer's installation instructions and in conformance with the City's Weatherization Material and Installation Specifications. It is the Owner's responsibility to be aware of and take proper health & safety precautions for hazards such as but not limited to knob & tube wiring and asbestos building materials.

**Wall Insulation:** A City Authorized Contractor must install blow-in wall insulation in order to qualify for a rebate.

**Weatherization Material and Installation Specifications:** A complete copy of the City's Weatherization Material & Installation Specifications is available on the *CONSERVATION* pages of the City's website [www.cityofpa.us](http://www.cityofpa.us).

You can also request a copy on the Conservation phone line at 360-417-4713.

**Inspection notification:** Some insulation installation may be subject to an in-progress inspection. All insulation installations must satisfactorily pass inspection by a Weatherwise Service representative prior to rebate payment. All installations may include an additional inspection by a Bonneville Power Administration Representative.

***The Owner(s) read, understood and agreed to comply with the Rebate Application and the City's Weatherization Material & Installation Specifications. By signing below the Owner(s) certifies the information provided in the application is complete, true, and correct.***
