

Lighting Rebates

Rebates are available for the following currently listed ENERGY STAR® lighting products:

Compact fluorescent lamp (CFL)

CFLs are a versatile choice for energy efficient lighting. CFLs are available in many shapes and sizes and use 40-60% less energy than incandescent bulbs.

The City offers a \$2.50 rebate for a newly installed Energy Star CFL greater than 5 Watts.

Rebates not available for lighting products discounted through the *Simple Steps Smart Savings* promotion.

CFL Table & Floor Lamps

CFL portable table and floor lamps are used to replace incandescent table and floor lamps. CFL lamps use up to 60% less energy than standard lamps. **The City offers a \$10.00 rebate for a CFL table lamp and \$10.00 for a CFL floor lamp.**

Compact fluorescent fixture

You can replace your interior and exterior incandescent lighting fixtures with new CFL fixtures. New CFL fixtures come in a variety of styles such as wall sconce, ceiling mount. **The City offers a \$10.00 rebate for a CFL fixture.**

Local Discounted CFLs Available

The City is a participant in the *Simple Steps Smart Savings* promotion, which provides a variety of CFLs and specialty CFLs at discounted prices available at participating retailers. For more information on available discounted CFLs visit the *Simple Steps Smart Savings* website at: www.simplestepsnw.com. Local participating retailers include: Swains General Store, Thurman Supply, Hartnagel Building Supply, Angeles Millwork & Lumber, Safeway, Walmart, Home Depot, and Costco. **Rebates not available for lighting products discounted through the *Simple Steps Smart Savings* promotion.**

Be sure to ask the retailer to verify the product is a currently approved *Energy Star*® lighting product. *Energy Star*® periodically tests products and revises specifications to assure quality products have the *Energy Star*® label. Some de-listed product may have an *Energy Star*® label on the packaging. **Be sure to ask the retailer about the current listing. If you are in doubt you can contact the City at 417-4718 for assistance.**

Purchasing Tips:

- ❖ **Place CFLs in the fixtures you use most frequently.** CFLs are most efficient when they operate for several hours at a time (2 hours or more).
- ❖ **Use only in locations suggested by the manufacturer.** Certain CFLs are designed to work in dimmable, 3-way fixtures, as well as Torchiere. Check the package to be sure you are buying the correct bulb.
- ❖ **Use CFLs in the fixtures that are hard to reach** such as ceiling fans, other ceiling fixtures, and enclosed outdoor fixtures. Because CFLs last longer, you enjoy the convenience of buying and changing bulbs less frequently.
- ❖ **Smaller sizes mean greater compatibility with your fixtures.** Today's CFLs are designed to be smaller and thinner than earlier models, so you can install them in a wider variety of fixtures, such as wall sconces, ceiling-mounted fixtures, and ceiling fans.
- ❖ **CFLs are available in a range of color temperatures:** Warm, white light: Look for a color temperature of 2,700-3,000K. Cooler, white light: Look for a color temperature of 4,500-6,000K.
- ❖ **Be sure to replace incandescent bulbs with CFLs with similar lumen or light output.** The table below lists common lumen ratings for the most popular residential incandescent bulbs.

A-shaped Incandescent Bulb (Watts)	Typical Lumens (Measure of Light Output)
40	> 450
60	> 800
75	> 1,100
100	> 1,600
150	> 2,600

Lighting Rebates

Weatherwise Service

Residential Lighting Rebates 2011

Weatherwise Service is an Energy Conservation Program offered by the *City of Port Angeles* in cooperation with the *Bonneville Power Administration* and the *Conservation Rate Credit*

For more information contact us by mail at:
Weatherwise Service
City of Port Angeles
P.O. Box 1150
Port Angeles, WA. 98362
phone:
Message Line: 417-4713
FAX: 417-4709
 or visit:
Conservation Programs
 on the City's website at:
www.cityofpa.us

To participate you must...

- Be an electric utility customer of the City of Port Angeles.
- Install the lighting product in a residential building.
- Replace an existing incandescent bulb, fixture, table or floor lamp with a qualifying **ENERGY STAR® CFL or electronically ballasted fluorescent lamp.**

It's easy to participate

Step 1 The first step is to purchase qualifying **ENERGY STAR®** lighting products. **The product must be listed as approved product by ENERGY STAR® at time of purchase.**

Step 2 After you install the products, the next step is to complete and sign the application section of this brochure (see panel to right). **Be sure to include the Manufacturer and model number of the lighting product.**

Step 3 Mail your application and original purchase receipts to:
Weatherwise Service
PO Box 1150
Port Angeles, WA 98362-0217.

Qualifying lamps & fixtures

For information on ENERGY STAR® qualifying lighting products visit the ENERGY STAR® website at www.energystar.gov.

Notices

Not valid with other BPA or City offers. The purchase must be made after October 1, 2009, and before September 30, 2011 to qualify for a rebate. The rebate shall not exceed the actual cost. The quantity purchased shall not exceed the number of units required at the service address. Products shall not be re-sold. A rebate is not available to replace defective products, for spares, or for replacement of products under the program. CFL's are not compatible with dimming controls and 3-stage lamp switches unless rated to do so. For maximum savings, install CFL's in areas that you use lighting the most. Payment of the rebate may take up to four weeks.

By signing the Rebate Application, you agree to the terms and conditions of this special offer. Furthermore, you certify the information provided in the application is complete, true, and correct. The City reserves the right to change terms and requirements without notice. This is a limited offer and restrictions apply. You should consult your accountant or the Internal Revenue Service regarding the taxation of the rebate.

The City may inspect the customer's installation of energy efficient lighting. Such inspection will verify the customer has electric service from the City, and that qualifying lamps and fixtures were installed at the customer's Port Angeles service address in accordance with the City's offer.

The Customer shall indemnify and hold harmless the City, its officers, officials, employees, and volunteers harmless from any and all claims, injuries, damages, losses or suits, including attorney fees, arising or issuing out of or in connection with this offer, except as may be caused by the sole negligence or willful conduct on the part of the City.
