

INSPECTIONS & SIGNING UP FOR UTILITIES

ELECTRICITY - SIGN UP FOR ELECTRIC SERVICE AT THE CASHIER COUNTER

After paying the electric service fee (usually included with the various Building Department and Public Works Department permits & fees), please sign up at the cashier counter for temporary power, service, and/or an electric meter.

WATER – SIGN UP FOR WATER SERVICE AT THE CASHIER COUNTER

After paying the water service fee (usually included with the various Building Department and Public Works Department permits & fees), please sign up at the cashier counter for water service.

If you were given a blue stake at the permit counter, stick it in the ground at your property line where you want your water meter to be installed. The water department will automatically schedule & install the water meter. If you need to discuss when the water meter will be installed, contact the Water Department at (360) 417-4855.

To obtain a fire hydrant meter that includes backflow protection, contact the Public Works Dept. at (360) 417-4807 or 417-4812. After paying for the fire hydrant meter permit, sign up for fire hydrant water service at the cashier counter.

FINAL INSPECTIONS

Note: If your project has an Electrical permit, a Fire Alarm or Fire Sprinkler System Permit, and/or a Public Works permit (common Public Works Dept. permit types: sewer, water, driveway, curb, alley restoration, right of way, etc.) **get the *Electrical, Fire and Public Works final approvals first, before calling for the Final Building Inspection.***
