EOW/RECYCLE = Every Other Week Garbage and Recycling Collection

BLANK = Weekly Garbage Only

HOLIDAY SCHEDULE

Collections will be done on the regular scheduled day on all holidays EXCEPT for Thanksgiving, Christmas, and New Year's Day. Collections will be done one day later, for that week only.

NOT IN GARBAGE CARTS

Large bulky items (furniture, appliances, etc.), construction material, dirt, rock, sod, and liquid waste.

Residential household hazardous waste can be taken to the Moderate Risk Waste Facility at the Regional Transfer Station, open Weds and Saturday 11 a.m. - 4 p.m.

Yard waste is not allowed in garbage carts. Your alternatives are backyard composting, grass mulching, subscribing to yard waste collection, or taking your yard waste to the Port Angeles Transfer Station for composting.

Commercial Rate Customers:

- ✓ Garbage is collected weekly
- ✓ Weekly cardboard recycling service is available at no charge.
- ✓ Additional recycling can be requested through Waste Connections for a fee.
- ✓ Containers must be out by **5 a.m.**

Reduce and Reuse

We have to pay to get rid of our waste, whether it is buried in the ground or recycled. Therefore our most important goal is to reduce waste in the first place. Avoid single use (disposable) products. Choose items with less packaging when you shop. Reuse items as much as possible by using the 2good2toss.com web site.

Visit 2good2toss.com today and save disposal fees and landfill space.

Recycle More

Your everyday garbage contains valuable materials that can be recycled. The picture (right) shows what can go in your recycle cart. All the materials can be mixed together except glass bottles which must be taken to special drop sites. It is easy once you get in the habit! In 2010 City residents and businesses set out 2,407 tons of materials for recycling. The recycling was shipped to Tacoma, sorted, and sent to markets in Washington and worldwide.

Composting is Local Recycling

Yard debris is collected curbside and transported to the City compost facility where it is combined with biosolids and turned into Garden Glory Compost, a high quality soil amendment. Last year over 1,800 tons of compost were produced. Call the Transfer Station at 417-4875 for purchase information.

Recycling and You

Waste reduction and recycling are major goals of the Clallam County Comprehensive Solid Waste Management Plan. The materials placed in your recycling cart do not have to be shipped to a landfill where they are lost forever. New products can be made out of the old materials, using far less energy and materials in the process.

Recycle Your Computer or TV www.ecyclewashington.org

Take your old computer or television to Goodwill for recycling at no charge to you! The recycling costs are paid by the manufacturers of the equipment.

For information on how to recycle items not collected curbside, see this brochure on the city website www.cityofpa.us.

WHAT CAN BE RECYCLED!

Aluminum Cans

Cardboard

Mixed Paper

Tin Cans

Plastic Bottles and Jugs
(No Plastic Bags)

LIDS

Glass bottles are collected for recycling at Swain's, Albertsons, Port Angeles Plaza and the Port Angeles Transfer Station.

The economics of the curbside recycling service can be improved if customers increase the amount of recycling, so use your recycling cart to the max. If you are not using your cart contact us and your cart will be removed which reduces the city's cost for recycling services.
